

# FP CAD Design Services

Building Connections Through Smart Design.

FP CAD Design Services is a professional CAD drafting business based in the Waterloo Region, Ontario. The company specializes in underground telecommunication design, including fiber, conduit, and micro-duct systems. Founded by Fritz Point-Du-Jour, who brings over nine years of experience as a CAD Technician, the business provides precise, permit-ready drawings for telecom companies, engineering firms, and local contractors.

Services:

- Underground Fiber Network Design
- Permit & Construction Drawings
- As-Built & Redline Updates
